Dear Mr. Comas:

This is a reply to your April 23 office action and acceptance of the April 29 interview summary where I said I'd attempt to amend specifications and claims to overcome objections and also distinguish my application from Appa 6,278,197.

Please give attention to content and not form. I'll follow up in a few days for feedback before I provide patent attorney with hard and soft copies so that he might bring into final and acceptable form.

In the attached, amendments (changes) are in **bold** with the exception of added reference numbers on figures 1 through 4.

Yours Truly,

Matthew Earley
